Subject: Shaffer - Post Removal Controls and Maintenance

Hi Jake,

I wanted to let you know that Tom Cinti my EPA attorney will be working on an Uniform Environmental Covenant for the portions of the parcels that the cap covers. To ensure this time we have mowing/maintenance to keep the ground cover to grasses and not trees. So, EPA and WVDEP should also start the discussion of periodic sampling of the monitoring wells and inspection of the cap after the repairs are made. Let me know if there is a time you would be free to discuss.

Thank you,

Melissa Linden, OSC
